

Business Resumption Plan

Reviewed 11/8/2007

The Business Resumption Plan (BRP) is incorporated into this Safety and Health Program by reference. The Business Resumption Plan provides an outline of actions to be taken in the event of the loss of the facility's ability to operate normally. This plan covers all contingencies from loss of electrical power to destruction of the facilities. The BRP covers such topics as:

- Succession of delegation and authority.
- Essential functions and activities of the field station.
- Scenarios and actions to be taken.
- Training and exercises.
- Relocation and alternate sites.
- Telephone calling sequence.

A copy of the full text of the BRP can be obtained from the Safety Officer or Station Leader.
