A limited amount of general-use research space is available at the University of Hawaii at Hilo. Investigators may apply for space, which is allocated competitively by the Vice Chancellor for Research based upon recommendations from the UHH Research Council. Priority is given to those with extramural grant projects, and to junior faculty. Priority for on-campus space is also given to those using students as research assistants. Allocation is made for only one year at a time, with reapplication required if additional time for use of the space is desired.
